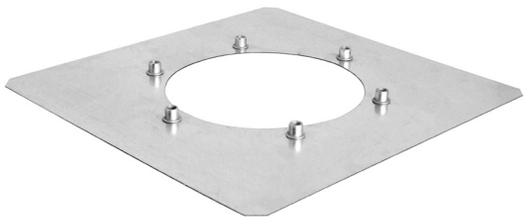
Roof fan to SPIRAL duct adapter spigot plate

PDI-BRV-KILL-UP



Description

This product can only be installed on top of a roof fan base, underneath a roof fan. The joint between the adapter spigot plate and the roof fan base must be sealed with the SIL-DEK-310 roofwork sealant. The USZ gasket must be installed at the joint between the roof fan and the adapter spigot plate. The adapter spigot plate is a thermal insulating piece only. The products include straight spigot plates with ILSL connectors.
