

## Concentric square-to-round transitions

# PR1/PRL1

### Description

This transition piece changes the ductwork shape from square to round.

This fitting helps in routing round and rectangular ducts with the centrelines aligned.

The square connector has a flange frame in the standard version.

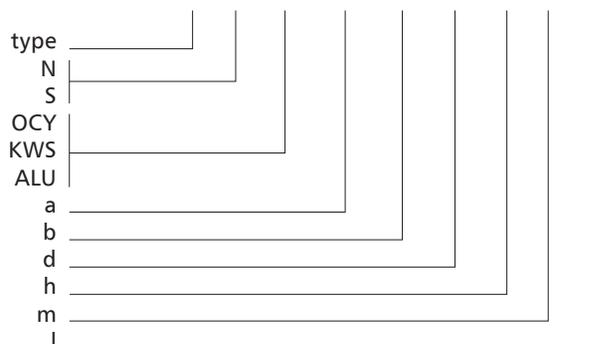

The round connector is male in the standard version. The PRL1 fittings have a male connector fitted with a gasket.

#### Available materials — Product code examples

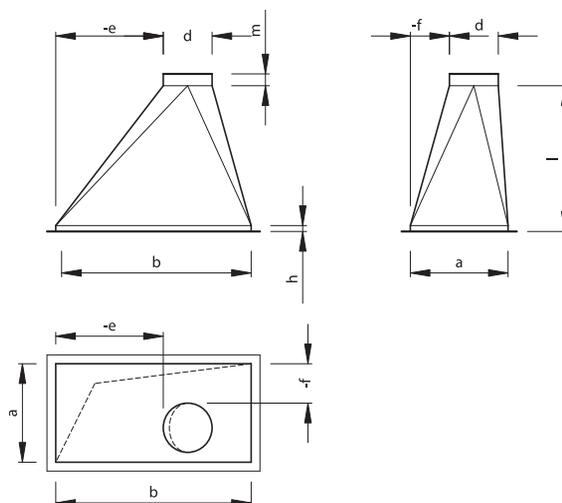

- QPR1 -...-... — galvanized steel sheet
- QPR1-...-K-... — 1.4301/304 stainless steel sheet
- QPR1-...-K-...-316L — 1.4404/316L stainless steel sheet
- QPR1-...-A-... — AW-1050A H24 aluminium sheet

#### Product code example

Product code: **PR1 - N - OCY - 500x300 - 250 - 30 - 30 - 800**

### Dimensions

- PR1 — type w/o gasket
- PRL1 — type w/gasket
- N — low-pressure version
- S — medium-pressure version
- OCY — galvanized steel
- KWS — stainless steel
- ALU — aluminium
- a — width
- b — height
- d — diameter
- h — extension (default h = 30 mm)
- m — flange length (default m = 50 mm)
- l — length

The standard versions are made in default dimension sizes which do not have to be specified.
