

Plastic circular air diffuser

PVC-NKSD-R

Description

Round plastic swirl air diffuser, made of sheets suitable for a given material by water jet cutting. The method allows the production of air diffusers in various configurations (number and shape of vanes).

Available materials

- PVC-NKSD-R-... - PVC polyvinyl chloride
- PP-NKSD-R-... - PP polypropylene
- PPs-NKSD-R-... - PPs flame resistant polypropylene
- PE-NKSD-R-... - PE polyethylene

Available materials - upon special order:

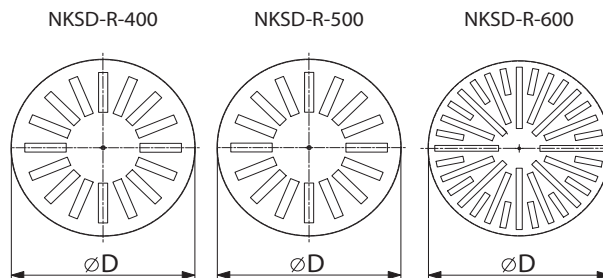

- PVCW-NKSD-R- ... - White PVC polyvinyl chloride
- PPELs-NKSD-R-... - PP-EL-s flame resistant electrically
conductive polypropylene
- PVDF-NKSD-R-... - PVDF plastic

Designation example

Product Code: **PVC - NKSD-R - aaa**

Dimensions

Product code	ØD [mm]	No. of vanes [pcs.]	Sheet thickness [mm]
PVC-NKSD-R-400	400	16	6
PVC-NKSD-R-500	500	16	6
PVC-NKSD-R-600	600	32	6
