Wall-mounted air intake/exhaust vent for larger sizes

USAV-CBL/USAV-KBL

Description

USAV-CBL is an intake/ exhaust louvre for large sizes, available in diameters ranging, even up Ø 1000mm. It is made of galvanized or stainless steel and has a male duct connection and a gasket. The USAV-CBL/KBL air louvres are secured with a galvanized or stainless steel mesh. The mesh size is 12.7 x 12.7 mm. Regardless of size, all air intake and exhaust louvres have 6 lamellas.

Available materials - Product code examples
USAV-CBL-... – galvanised steel sheet
USAV-KBL-... – stainless steel sheet 1.4301/304
